

## PARKER TENNIS CENTER

PARKER, COLORADO

### PROJECT DESCRIPTION:

Currently under construction, the Parker Tennis project is a facility that will house 8 indoor tennis courts and 4 outdoor courts. There will be a mezzanine level that overlooks all courts, so parents can watch their kids in training and tournaments can be seen from above. The welcoming center is designed with a check in desk, offices, locker rooms, pro shop, and a gathering space. This area will overlook tennis courts 3 and 4 and will also look onto the outdoor patio to the west. When the weather permits the garage door will open to create an indoor/outdoor social gathering space. The site will have a connection to the adjacent field house where sports activities and training occur all day long.

**OWNER:** Parker Tennis Center
